

DEATH HOVERS AT THE VATICAN.

The Reign of Leo XIII

Silently and Peacefully Approaches the Inevitable End.

Pope's Condition Is Hopeless.

"If This Is the Will of the Almighty, Nothing Can Change It," Were the Words of His Holiness to the Famous Dr. Lapponi.

Rome July 6.—Following is a text of the bulletin issued this morning by the pope's physicians.

Through his Holiness passed the night almost without sleep. He is not so restless as he was yesterday. The pulse has been benefited by the injection of digitalis and camphor and the condition of his chest is normal. There is a slight cough with some catarrhal secretion. Sufficient nourishment has been taken. The pulse is irregular and the pontiff's general condition is very grave but has not become worse.

Second Bulletin.

Rome July 6.—A bulletin issued this morning states that there is a slight improvement in the Pope's condition. The weakness of his holiness is becoming more marked but his condition has become more regular. The Pope left his bed (Carini) at 7 a. m. and the cardinal camerlango is occupying rooms on the third floor of the Vatican just above the Pope's apartment.

Apostolic Delegation Advised.

Washington July 6.—The apostolic delegation from Cardinal Agilardi was received today by the apostolic delegation from Cardinal Agilardi.

The condition of the holy father is serious but no worse. Night has passed without reluctance. The Pope's condition is becoming more marked but his condition has become more regular. The Pope left his bed (Carini) at 7 a. m. and the cardinal camerlango is occupying rooms on the third floor of the Vatican just above the Pope's apartment.

POPE GENTLY

Refused to Abandon Participation in What Was Going On.

Rome July 6.—As the Pope objected to having the oxygen inhaling apparatus continually under his nostrils, Dr. Lapponi arranged to impregnate the whole atmosphere of the room with oxygen.

"That is much better," said the Pope before I felt as though I had not had liberty.

With such Dr. Lapponi continually commands the patient not to speak and to pay no attention to what is passing outside the Pope gently refuses to abandon participation in what is going on. He said smiling to Dr. Lapponi:

"I know you say this because of your affection for me, but either my last day is rapidly approaching. In which case I must employ all the time which is left to me so far as I can or else I shall recover, again postponing the end. If this is the will of the Almighty nothing can change it. The Pope wished his armchair to be carried near his writing table, and then to the window, over looking the piazza of St. Peter. Noticing many people in carriages the Pope said:

"The piazza looks as it does when I am about to perform some public function."

"I AM READY"

"I Have Done All in My Power for Church and Humanity."

Rome July 6.—Dr. Lapponi's chief task is the maintenance of the Pope's strength. Some improvement was indicated this afternoon by the fact that the patient was more willing to take nourishment, which was administered at short intervals and consisted of Bordeaux champagne, raw eggs and broth but the doctor would not permit the Pope to partake of anything in reason for which he expressed a desire as there is special danger in the possibility of increased weakness. The only persons allowed in the Pope's bedroom this morning, beside the doctors and attendants were Cardinal Rampolla, Monsignor Bileletti the master of the pontifical chambers and Brigadier General Count Camillo Pecci, of the Noble Guard a nephew of the Pope. The Pope conversed for a long time with Count Pecci, even rising and walking about the room for a few minutes, leaning on his arm. The Pontiff on this occasion remarked: "Now I am ready to depart having settled all in my power for the good of the church and of humanity."

science and our faith."

The Pontiff yesterday ordered that a piano be given to his grand nephews also giving directions that they should be told that the Pope thought of them in his last moments. The Giornale d'Italia says:

"The improvement in the Pope's condition does not give hope of his recovery. He may live throughout the day, but it is greatly feared that a change for the worse will supervene this evening."

The feeling at the Vatican, however, is more hopeful this afternoon. Cardinal Di S. Antonio, who has established himself in rooms in the Vatican above the Pope's apartments, had a long conference with his secretary's today and gave orders that various documents connected with the election of a new Pope be conveyed to the Vatican.

LEO DECLARES

He Will Not Die in Bed. Dictated Variations in Poems.

The Pope, according to the Tagblatt said to Cardinal Agilardi:

"I will not die in bed." He went to his writing desk this morning, selected with his own hand, a memento for his favorite nephew, and then dictated to Cardinal Agilardi new variations to a certain poem and also yesterday to Monsignor Angeli, several Latin couplets on death.

UNVARNISHED TRUTH

In the Bulletins Given Out, Pope Handicapped by Age.

Berlin July 6.—The Lokal Anzeiger's correspondent at Rome reports an interview which he has had with Dr. Mazzoni and quotes him as saying:

"The bulletins tell the unvarnished truth. The Pope's condition objectively considered is hopeless. An illness like the Pope's at his great age must inevitably lead to death. The Pope's organs however are abnormally strong and tough, which can do miracles. Nevertheless science can do nothing more."

The Tagblatt Rome correspondent telegraphs that it is impossible to keep the Pope in bed and adds that nobody ventures to prevent him from getting up.

TEAM DRIVERS GO ON STRIKE

And People of Akron, Ohio, Are Deprived of Their Beer and Ice.

Akron O. July 6.—The members of the International Team Driver Union in this city went out on a strike this morning and there was no ice or beer delivered until a later hour. Then the grocers, butchers, restaurants and others whose business required ice, secured conveyances and hauled ice to their places of business. It was not so easy to fill the places of the drivers of the beer wagons and it was 10 o'clock before any beer was delivered. About 75 men are affected by the strike.

HEARING IN BANRUPTCY

Of Adams & Barber Oil Company Began in Cleveland This Morning.

Cleveland O. July 6.—The first hearing in the bankruptcy of the Adams and Barber Oil Co. was held this morning before referee Remington. No startling facts were developed aside from the revelation that the Adams and Barber Co. was the recipient of considerable stock proceeds in the flotation of all the companies which were promoted by them.

The examination will be continued this afternoon. Amended schedules in bankruptcy filed in the United States district court this morning by Adams and Barber, add about \$200,000 to the assets of the concern, and its members. Among the new assets is a considerable quantity of stock in various companies. In the amended schedules of liabilities are several companies for guarantees of stock.

Two Contested Divorce Suits Engaged the Attention of Judge Cunningham

And a Fresh One Blots Another Page of the Appearance Docket. A Wedding Occurs in the Meantime.

It is warm weather for divorce suits, but Judge Cunningham has visions of the running waters of the French Canada, and is wading into the stagnant pools here at home with an idea of getting rid of the superfluous cases in which man and wife have publicly declared their inability to live a peaceful and happy life. There are more witnesses and spectators when divorce suits are on than a million dollar railroad suit, and today was no exception to the rule.

The general run of such cases brings but the plaintiff to the stage, but in the case of George W. Ardinger vs his wife Matilda, there was a controversy which introduced both sides. I. S. Otter representing the complainant, and J. C. Ridgway the defendant. It developed during the examination of the witnesses that the husband had reason to suspect his wife and, in order to satisfy himself as to her infidelity, had secured the services of private detective Blaise, and a few amateurs. There was nothing introduced to absolutely establish the charge, although several claimed to have seen Mrs. Ardinger in company with other men at various times.

The defense offered testimony to contradict the evidence introduced by the plaintiff and the case was finally submitted after the noon recess Judge Cunningham reserving his decision until later.

The divorce suit of Mary E. May vs Geo. W. Moyer, is being heard this afternoon.

HEARTSICK AND WEARY

The Harrod Couple Return to Seek the Balm of Forgiveness

There was recently made public a sensation of no small dimensions, which developed in the village of Harrod, and now comes the sequel to an old story oft repeated. A month ago Earl Ditzler, a married man, with a wife and five children succumbed to an infatuation for his wife's half sister, Miss Ebby Metzger, and he lured her to a step which led to the downfall of both. They disappeared and the morsel of gossip was forgotten after a reward of \$50 was offered by relatives which no one called to claim.

But the fruit it seems, was not worth plucking and last night the runaways returned to the quiet village, bringing no explanation and no excuse has as yet been offered. The girl's relatives have taken her back, but Mrs. Ditzler has not effected the reunion with her husband, which he no doubt hopes for.

SCULPTOR SUICIDED.

Grew Despondent Because His Design for McKinley Memorial Was Rejected.

New Haven, Conn. July 6.—The body of the man who committed suicide in Whitneysville, last Thursday, has just been identified as that of sculptor John Donoghue, of New York.

Donoghue's suicide is said to have been the result of despondency, due to the rejection of his design for a \$50,000 memorial to the late President McKinley, which it is proposed to erect in Philadelphia. Donoghue had executed some notable pieces of sculpture, that were highly praised both at home and in Europe. He was of a modest and retiring disposition, however, and failed of the recognition that he felt was his due, and the rejection of his McKinley memorial plan caused him to lose heart completely.

Wedded in Public.

Rev Figley performed a marriage at the court house this morning in the presence of a few spectators who congregated in the Upper Probate court room. The contracting parties were Mrs. Stumbaugh, aged 24, and Mrs. Ora Woodworth, aged 28, both of Lima.

He Was a Bird.

A new case in which marriage proved a failure, was docketed this morning. Susan B. Wren complains, in a petition filed by Attorney Bryan, that her husband has been guilty of extreme cruelty, and gross neglect of duty. They were married in Hardin county Dec. 30, 1888 and have three children. The habitual use of intoxicants is said to have been the foundation of the present trouble and Mrs. Wren says she was frequently beaten by her husband when he came home in an intoxicated condition and she wants a divorce and custody of the children.

Oil Company Sued.

Charles W. Duncan is plaintiff in an action against the McKean Oil Co. and the petition which was filed Friday evening names James Lesue, Daniel Robertson, Frank Johnson and W. W. Bell as defendants. The plaintiff asks for a judgment for \$24,900, which he claims to be due for drilling two oil wells.

Militia Is Called Out

And Serious Trouble Between Whites and Negroes Is Expected.

County Jail Entered by a Mob

But the Negro Murderer for Whom the Mad-dened Citizens Searched Had Been Spirited Away to Another Prison—Armed Negroes Parade the Streets.

Evansville, Ind., July 6.—Race prejudice between negroes and white men brought on a reign of terror here Sunday, which has not yet ended. All last night and all day yesterday, armed men threatened the lives of citizens. Gunshots were broken up and weapons and ammunition were seized by negroes and white men, the county jail is partly wrecked, an angry mob of 2,000 whites broke into, to hunt for a black victim, the wall was forced with a battering ram, negro divers were ransacked and shot to pieces in the search for the blacks, and an armed company of drilled blacks marched through the streets threatening the lives of all whites. The governor ordered out troops to protect property and quell the disturbance but they have not arrived.

At daylight three hundred armed white men started for the powder magazine near the city to secure explosives with which they declared they will blow up the entire negro colony of Baptistown a suburb of the city. The trouble which has been brewing for months came to a crisis Friday, when Lee Brown, a negro shot and killed patrolman Massey, who was trying to arrest him while bent on the murder of a man with whom he had quarreled. Threats of vengeance were followed by the surrounding of the jail. The negro was secretly removed from the city yesterday and taken to Vincennes. Patrolman Massey died in terrible agony yesterday morning. The mob refused to credit the statements of the officials that the negro was not in the jail and began threatening, as it increased in numbers. Twenty-five policemen were mobilized in the jail and repulsed the first attempt to force an entrance after the gates were crushed in. A telephone pole was used as a battering ram and the jail windows gave way. The committee was appointed to search for the negro that he was not there, was not believed, and after forcing a breach, the mob poured into the corridors. Finding its victim gone, there was a cry of "kill the negroes" and arms were demanded.

A company of armed negroes, aroused by the race troubles marched through the streets shouting "down with the whites" and threatening death to all if the negro was lynched. This started a rush for the gunstores, by the whites. Three were broken open, and 400 rifles and revolvers, with ammunition were seized. From this time on throughout the night there were thousands of bullets fired.

POLICE CAPTAIN

Thinks There Is Little Possibility of Effecting Peace.

Evansville Ind. July 6.—At 6:30 this morning Captain Brenke of the police force reported that there was little possibility of peace. The crowd of negroes that started the trouble last night, is thought to have been organized at Bud Fruit's place. The captain said that there is little doubt in his mind that Fruit incited the negroes to go the defense of Brown, who the mob thought was confined in the jail. The armed force of negroes is still at large, though scattered and is defying the officers. No arrests have been made, but the policemen have been instructed to do everything in their power to corral the band. No deaths have been reported, but several are known to have sustained serious injuries, and a number of negroes are missing. The mob that moved on Baptistown early this morning, riddled the dives with bullets and it is thought a few persons were killed, and several injured. The mob was unable to get into the powder magazine though an attempt was made to do so. It has divided into small groups and the members are still armed and marching through the streets. The company of militia which was ordered on the scene by Governor Durbin, has not arrived and an investigation will follow the failure of the captain of the company to respond to the call of the state and city authorities. Captain Brenke says the police department is powerless if another outbreak occurs.

One negro woman is known to be dead and a boy named Logan, was shot and seriously wounded by a negro. The mob, shooting, went through the streets inhabited by negroes and did not stop to inspect its work, and excitement and confusion have prevented houses being searched for dead and wounded. The mob, after leaving the jail on finding that the negro Brown was gone, broke into the gun stores of Boetticher and Kellogg, Wildering and Co. and F. M. Bush and Co. and after thoroughly arming, all rushed through the streets hunting negroes. The armed company of negroes had disappeared. All blacks fled the streets and failing to find victims, the resort of Budd Fruit, was visited, and shot to pieces. From there, the gun stores of Wildering and Bush, were broken open, and new recruits to the mob were armed. The march to Baptist-

TROLLEY LINE SLEEPING CAR

Will Be Provided With Electric Curling Irons for Lady Patrons.

Columbus, Ohio July 6.—The sleeping cars ordered by the Columbus, London and Springfield trolley line, and which will be run between Columbus and Cincinnati, will be similar in many respects to the Pullman cars. The new cars are 56 feet over all. During the day time the car presents the appearance of an open passenger car with twenty revolving seats. At night it is converted into ten compartments, each 3 feet 6 inches wide and six feet 10 inches long. Upper and lower berths are provided of the regulation steamer size, with a 15 inch space between the berth and aisle, for dressing. The partitions will be formed on the same principle as a roll top desk, and are entirely out of sight during the day. There will be the usual toilet rooms at each end of the car. Among the novel minor equipments, will be electric curling irons, for the women, and electric cigar lighters, for the men. Electric fans and electric heaters. The cars will be equipped with motors that can propel them at a speed of 60 miles an hour, if desired. It is anticipated that the first car will be put in operation about August 1. The trolley dining car is scheduled for the next achievement.

GUILBERT IS OF OPINION

Tax Added to Cleveland Public Service Corporations Will Not Stand the Test.

Columbus, O. July 6.—In a statement made today State Auditor Guilbert indicated that the Cleveland Public Service Corporations will be relieved of the \$2,787,254 taxes placed against them by Auditor Wright of Cuyahoga county.

Mr. Guilbert said: "The question has not yet officially reached our board and of course I could not say what we will do but Auditor Wright has just what the board a year ago held he could not do. He is discharging our instructions and an appeal can be taken to our board by the corporations."

Very Remarkable Cure of Diarrhoea.

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Boque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by Wm. M. Miniature Trees.

The Japanese art of making miniature landscapes and gardens consists chiefly in starving the plant so as to retard the circulation of its sap or life giving juices. Fergusson, who was one among the first of English adventurers to visit China and Japan, mentions the fact that he saw at Canton "a box about the bigness of a ladies snuff box, which did not contain a little dirt and sixteen tiny little trees, four of which were in full blow, the whole box, trees and all so small that a man could put them in his mouth together."

To California Through Colorado

By all odds the most intensely interesting way to California is through Denver and Salt Lake City, past all the magnificent Colorado scenery by daylight, and around Cape Horn on the Sierra Nevada. Another thing about this route is its peculiar freedom from severe storms and washouts which cause vexatious delays. Generally the sun shines clear and bright all the way. Our Personally Conducted Excursion parties from Chicago and St. Louis go that way every week. Ask your nearest ticket agent about them, or send to me for one of our folders describing the trip.

CUT

On Face by Trolley Wheel

A Conductor

Of the Street Railway Injured.

Ira Port Made a Run of 50 Straight at Gun Shoot in South Lima.

Ray Shriver Undergoes an Operation for Appendicitis, Don Schuler Shoots His Finger.

Conductor Stump, of the street car service suffered a peculiar, as well as painful accident yesterday. He was running on south Vine street on car No. 111 and was near the bridge, when something went wrong with the trolley. He leaned out of the rear window and just as he looked up a piece of the trolley wheel came whirling down and struck him on the face, inflicting a painful but not dangerous wound. His nose was badly cut and bled profusely. There was also a gash under the left eye. The young man was taken to Dr. Matthews, who crossed the wound and the young man went home to nurse an injury that will inconvenience him for some time and that may leave an ugly scar.

The Gun Shoot.

The meet of the south side Winchester Gun club was quite well attended considering the other attractions of the day. The shooting began shortly after one o'clock and lasted until evening. Ira B. Post, of Spencerville, again demonstrated his superiority as a marksman, not only winning the club event by a score of 10 out of a possible 10 and thus landing a badge but by also making the remarkable score of 50 straight. Mr. Post was the right to wear the badge that Charlie Mooney has had in his possession for the past two years. He declined to accept it, however, inasmuch as he would be unable to attend the weekly events of the club. And so the medal will remain in the possession of the secretary, until the shoot shall decide who is to wear it for the next year. Following the club event, out of a possible 10, P. B. Mooney, 27 Blount St. Boone, 19 Hall 10, Holbrook, 19 C Hall 18, M. Hall 14, I. Duffield 14, Honey 14, A. Hall 12, Matt 12, Douth 10.

Doing Nicely.

Ray Shriver of St. Johns avenue underwent an operation for appendicitis at the hospital at one o'clock yesterday afternoon. He underwent the operation well and was doing nicely yesterday.

No Game.

The footballs did not play Saturday afternoon. The manager of the Marlboro team had scheduled a game for the same day. For a time it was thought that the Marlboro team would play the Giants playing in Washington on the afternoon of the 11th.

Missed His Mark.

A. A. Johnson of Atlantic avenue missed a mark at the rifle Saturday afternoon. A very painful accident happened when he was using a mallet on a pin when a handle of the mallet caught in his clothes and caused him to strike his left hand pinning it against the wall.

No Use.

"Doc" Lehman and Lou Cramrine and "Bob" and Col. Coleman were all at the reservoir on Saturday. When two such parties get together something has got to give. "Doc" and Lou didn't catch anything, and they say it was simply because Bob and Cal got there first. We will hear Bob and Cal's side of the story tomorrow.

South Lima Baptist Church.

Rev. Gilbert W. Schmitts preached a very logical and instructive sermon Sunday morning on "Christian Work." His talk was based on Eccl. 9:10, and he subdivided his subject as follows: First, finding work, second, doing work, third, how to do it; fourth, reasons for doing it. Rev. Schmitts began by stating that the Christian life is necessarily an intensely active one. A good motto to be tacked up in a conspicuous place in the church would be that one which is frequently seen about factories where men mean business, "No loafing here." Or that other one which is also very applicable to the Christian life, "No admittance except on business."

He then introduced the familiar example of the bee-hive, where all of the drones are stung out. The church ought to be a bee-hive too. Another useful lesson for Christian people was pointed out in the fact that the man who is always at some healthful labor is always healthy himself. The Christian who is always busy need never fear the ill health that will soon unfit him for work.

Finding work. People should not wait for the minister to put them to work. This is an age of specialization but the church is not dying for specialists. Each man should use his talent, where the first opportunity presents itself and not wait for a more suitable time. The parable of the sons was aptly referred to. The son who refused to go and do his father's bidding, and then went was the one who received the credit. We are reminded by what we have done—not by what we have said we would do.

(Furthermore) we should do what we do with our right. We should do our work for the Lord not by the day but by the job. There are few business men in Lima who would not become bankrupt very soon if they conducted their own business as they conduct the Lord's.

The Old Story.

Don Schuler of south Central avenue bought one thousand blank cartridges with which to celebrate the Fourth. Thinking that his gun was empty, he was handling it rather carelessly when it went off in his hands. As a result he is nursing a very sore finger.

A Pleasant Surprise.

Frank Rabe of 952 Reece avenue was treated to a pleasant surprise yesterday afternoon. Today was his 27th birthday but his wife decided to take time by the forelock and gave him a party yesterday. About 30 guests were present from in and out of town and a delightful time was enjoyed by all. A beautiful Macabre charm was presented to Mr. Rabe as a memento of one of the pleasant surprises he has ever had. The guests departed last evening, wishing him many happy returns of the day.

MINSTRELS

The Entertainers at McBeth's Park This Week.

The Opening Performance Yesterday Was Witnessed by Splendid Audiences.

The Barlow minstrels, opened a week's engagement at McBeth's park with a matinee performance, yesterday afternoon, and played both afternoon and evening to large and appreciative audiences. The show is a good strong one, under the management of the ever popular Coburn, and is a much better summer show than was presented by the same company at the park last season. The first park vocalists are all good ones and the singing is a feature of the show. The songs are new and catchy, and the choruses are especially well rendered. The first part lasts about one hour and the old following includes five strong acts introduced by Variae and Turrenne, Roman are manipulators, Charley Strong, the premier of buck and wing dancers, Cameron and Toledo in a very clever originality in operatic and pantomimic extravaganza, the famous Gross Bros. parallel bar acrobats, and popular Charley Milton, the Mansfield of Minstrelsy.

In the first part, Milton Strong and "Billy" Day manipulate the bones.

Lew Nelson, Giles Buttons and Bob Winat operate the tambo end. Hand some Walter Wolfe, a popular basso pilots the conversationalism and the excellent chorus and solo work is being done by Joe McMullen, Will Voelker, J. F. Walsh, Ike Paul, A. H. Fulton, Walter Wolfe, Chas. W. Cameron and Lloyd Reed.

When Other Medicines Have Failed take Foley's Kidney Cure. It has cured when everything else has disappointed. Sold by H. F. Vorkamp, cor Main and North streets.

This is a season when obliging neighbors who don't go out of town are left with palms, dogs, cats and pet canaries on their hands.

W. L. McLain spent yesterday at the reservoir. He didn't fish any how ever. He doesn't believe in fishing on Sunday and he says he could get wet enough without getting into the water.

The base ball season closed, Satur-
day.

For sale.—Nine base ball suits, and
the players that go with them.

Nothing short of a nitro glycerine
explosion can revive the memory of
Friday night and Saturday during the
next twelve months.

If Lima College is as well patro-
nized the coming year, as the pump
which adorns the campus was Satur-
day afternoon, the year will be a good
one for it.

Three great events occurred Satur-
day. President Roosevelt sent the
first telegraphic message around the
globe. Barney Oldfield broke all auto-
mobile records, and Johnnie Hogan,
of Para III, finished a trip around
the world on sixty-one cents. Take
your choice as to greatness.

Kansas is now harvesting a \$19,000,
000 wheat crop. It is a strenuous oc-
cupation brought on by a high protec-
tive tariff, trusts and benevolent as-
sistants. We can say with pride,
and while standing on all republican
platforms that no other cause had any
thing to do with this prosperity.

Several local ministers of the gospel
had occasion at morning services yester-
day to call attention to the patriot-
ism of their constituents to Natal
Day, and their equal neglect of the
cause of Christianity. A good many
of the constituency had enlarged
heads from the deafening noise that
had prevailed for two days. Their ear-
drums were also so affected that it
would have been impossible for them
to hear these should have been
taken as good and sufficient excuses.

AWFUL INHARMONY.

The Sultan of Morocco has sent
President Roosevelt a saddle with
silver mountings. The saddle part of
it was proper, and the day may come
when on the back of Wyoming it will
take a ride on the White House ele-
vator, but the mountings—think of the
lack of harmony. Silver to Teddy! The
proverbial red flag to a bull could not
have been worse. However it was a
thoughtful oversight on the part of
the ruler of Leatherstocking.
This gift from Morocco has caused

wonderment at the failure of the Sul-
tan of Sulu, alias "George Adu," to
send over something to Teddy. The
facts are, he thought about it, but on
taking an inventory he found there
was nothing he was long on except
wives, and being an American subject
and therefore strongly anti polygamous
he knew it wouldn't do to send one of
them. He took a second inventory,
in his anxiety to please, and found the
only other thing he had was a plethora
of American coin, and he knew that
was so plentiful about Washington
that government officials could pick it
off the bushes, so he decided to keep
all he had of the root of evil.

And for this the president, through
Taft, wired him July 4th, 1903, wishing
him and all his family long life and
prosperity.

This Ade took for a fable, and later
he'll make it the basis for an opera.

A Sunday Selling Case the
Cause of the Prisoner's
Troubles.

Another Affidavit Filed Against
Riley Point Who Is Now a
Prisoner in the County
Jail, Doing Time.

Dan Lynch, an alleged "rounder,"
is a guest at the police station, and
against him the unusual charge of
contempt of court is recorded on the
report of arrest. Lynch was recently
suspected to appear in mayor's court
as a witness in a case against Eli
Brentlinger a saloon keeper charged
with Sunday selling. Brentlinger had
pleaded not guilty and the case was
set for hearing on July 2 but Lynch
failed to respond to his summons and
in consequence his arrest was ordered
and performed. The Brentlinger case
was reset for hearing this afternoon
at 3 o'clock.

Come Again Riley.
Riley Point, who is serving "time"
in the county jail for stealing a pair
of shoes, may think he is about to re-
gain liberty but he has one more
guess coming. Another affidavit was
filed against him today, charging him
with stealing a plane from a carpen-
ter named Johnson, of Holly street.
Riley will be re-arrested upon the ex-
piration of his present sentence.

For Non Support.
Ben De Voe, a well known horse-
man and oil field worker, is the de-
fendant in a case in which his wife
Iva A. De Voe charges him with neg-
lect and failure to support their five
children of ages ranging from eleven
years down. The husband and father
has furnished bond in the sum of
\$200 for his appearance at 10 o'clock
tomorrow.

Other Cases.
Frank Holmes, charged with steal-
ing \$450 belonging to Mrs. Stewart, a
south Central avenue washerwoman,
will be arraigned for hearing July 13.
Ben Sawyer, colored, charged with
assault and battery, pleaded not guilty
and his case was set for hearing July
9th.
G. W. Troxel, charged with fighting,
will be sentenced within a day or two,
the mayor having withheld his de-
cision in the case.

INDIANS

Direct From Their Squaws and Ponies
in Town.

The Dr. W. I. Swain and his big
Medicine company arrived over the C.
H. & D. railroad with two private
cars, and a big concert company to
stay. They are erecting big water
proof tents on the show lot on south
Main street, just beyond the creek,
and will open for business Tuesday
night. This is said to be the biggest
medicine company in the United States
or in fact in the world. The concert
is excellent. Besides Ten White Con-
cert performers they carry several
full blood Ton-Ka-Way Indians among

it is perfectly water proof. Seats for

ALL QUIET

Along the Potomac on the
Glorious Day,

But There Was a Hustle to Catch
Up With the Traffic by the
Boys of the Rail.

The unloading of local freights on
the various roads Saturday, had its
effect on the boys yesterday, many of
whom were compelled to help out in
the movement of trains. In the short
space of fifteen minutes yesterday af-
ternoon, three freights passed over
the Pennsylvania, two of which were
double headers carrying 68 and 75
cars, respectively.

A west bound freight yesterday af-
ternoon, on the Pennsylvania carried
four new engines, from Pottsville to
the P. C. C. & St. L. line.

Along All Lines.

Charlie Klipp, foreman of the up-
holstering department, of the C. H.
& D. spent the Fourth at Cincinnati.
Eugene Aires, foreman of the boiler
shops, got his birthday anniversary
mixed up with America's Fourth of
July, and while on duty on that glori-
ous day, appeared in a high silk hat
of the vintage of '35.

The Fidelity Coal Co., has about
completed a coal storage building,
divided into bins, which extends from
Pearl to McKibben streets, a distance
of nearly 300 feet, along the C. H. &
D. tracks.

Passenger Engineer Walter Ryl-
man, of the C. H. & D., laid off for a
trip to entertain his wife's parents,
Mr. and Mrs. Hastmyer, of Xenia.

The Young People's Society of the
German Reformed church, entertained
at the home of Mr. and Mrs. J. Jaeger
on Friday evening in honor of their
president, Miss Lena Stelzer, who soon
leaves for Europe. The from out of
town guests were, Miss Callie King,
Miss Dora Neidhart, Miss Ida Gromph,
Miss Bertha Dreyer of Marion and
Miss Kraft of Toledo.

CONSIDED

To a Resting Place in Geth-
semani Cemetery.

Funeral of Patrick O'Neill Held
From St. Rose Church at
8:30 This Morning.

The last sad rites over the remains
of Patrick O'Neill, were held at St.
Rose church, at 8:30 o'clock this
morning. Rev. A. E. Manning, who
sang the high mass of requiem,
preached the funeral sermon, paying
a worthy tribute to the sterling faith
of the deceased. The funeral services
were very largely attended.

Members of the C. K. of O., and Di-
vision No. 1, A. O. H., attended in a
body. The pall-bearers were chosen
from the above societies of which the
deceased was a member.

Relatives present at the funeral
from out of the city, were the de-
ceased's sister, Mrs. J. J. Collins, of
Wapakoneta, and Thomas, Anna,
Catherine and Margaret Ryan, cous-
ins of the deceased, from Dayton.

The body was consigned to a rest-
ing place in Gethsemani cemetery.

East Indian Monkeys.

A naturalist who has traveled in the
East Indies says "The effect on the
monkeys of man's appearance is most
interesting. The expression of their
emotions is certainly almost human as
they sit and stare at him, coughing and
snarling with anger and contempt,
drawing back their heads and throw-
ing the hand before the face with a
gesture of abhorrence and other move-
ments indicative of shocked and out-
raged feelings. But predominant is the
expression of absolute horror,
which, coming from those we consider
our still degraded cousins, is to our su-
periority very aggravating."

Analysis of a Tear.

The chief element in the composition
of a tear is water, but with water are
associated minute proportions of salt,
soda, phosphate of lime, phosphate of
soda and mucus, and when seen under
the microscope a tear after evapora-
tion looks like a very small fish bone,
owing to the salines forming them-
selves into lengthened cross lines.

Perfect Work Assured.

Puddy—Come, now, what would you
propose to bring about an ideal state of
things?
Duddy—Nothing easier, my friend.
I'd just put everybody at work upon
somebody else's job, and then of course
every kind of work would be done per-
fectly.—Boston Transcript.

Light Work.

"My brother Jake's got a new job."
"Where's he working?"
"Down to the electric light plant."
"Picking currents off the wires?"
"Yes. How did you guess? He says
he likes the job. It's such light work."

PRESIDENT OF FRANCE

Given Regal Reception on His First
Visit to English Soil.

Paris, July 6.—President Loubet
left here this morning on his way to
England to return the recent official
visit of King Edward. He was accom-
panied by foreign Minister Delcasse
and a half dozen other functionaries,
who composed his suite.

At Boulogne Sur-Mer.

Boulogne-Sur-Mer, July 6.—Presi-
dent Loubet arrived here at 10 a. m.
and was accorded a hearty reception
by the assembled crowds. He pro-
ceeded immediately to the docks in or-
der to attend the ceremony of laying
the foundation stone of the new basin.
The town was overflowing with sight-
seers and the route of the President's
train from the suburbs to the docks
was lavishly decorated with venetian
masts, trophies, streamers and tri-
umphal arches. Fishing nets, as rep-
resentative of the chief industry of
Boulogne-Sur-Mer were also promi-
nent features of the embellishment.
The fishing industry was further rep-
resented by a triumphal arch entirely
composed of fish barrels, buoys, life
nets and similar articles. Such a dis-
play of British union jacks had sel-
dom been seen in France, while Ameri-
can, Russian and other flags were
numerous. The troops lined the en-
tire route and the immense crowds
throughout gave M. Loubet a memor-
able reception. On reaching the taste-
fully decorated presidential stand, M.
Loubet carried out the ceremony of
laying the foundation stone of the
new basin.

U. S. Squadron Arrives.

Dover, England, July 6.—The United
States European squadron arrived off
Dover this morning and exchanged
salutes with the castle.

French Cruiser Sighted.

Dover, Eng., July 6.—The French
cruiser Guichen having President Loubet
on board, was sighted at 12:40
p. m.

IMPOSING DISPLAY

Greeted the French President's Arriv-
al Off Dover Coast.

Dover, July 6.—Immense crowds of
people lined the sea front, which pre-
sented a gala appearance, the decora-
tions being on a scale far in excess of
anything previously attempted.
As soon as the Guichen was sighted
the flotilla of torpedo boat destroyers
steamed out to meet her and escorted
the French cruiser through a double
line of British battleships and cruisers
extending two and a half miles and
forming the most imposing naval dis-
play ever seen off Dover.

All the vessels were dressed from
stem to stern and their crews manned
ship and mingled their cheers with
the roar of the guns firing salutes and
the strains of the "Marseillaise" from
the naval bands. Each ship gave the
president a salute of twenty-one guns
as the Guichen passed and the band of
each vessel in turn took up the "Mar-
seillaise." The Guichen anchored off
Dover shortly after one o'clock and
exchanged salutes with Dover castle.
The Admirals and captains of the
British fleet immediately repaired on
board the French cruiser and paid offi-
cial visits to President Loubet.

CORDIAL WELCOME

Given in Behalf of the King of
England.

Dover, July 6.—It was 1:40 p. m.
when President Loubet stepped ashore
and entered a reserved enclosure,
brightly draped, at the head of the
stairs leading from the landing stage,
where a handsome pavilion had been
erected. Thousands of spectators as-
sembled at all points of vantage gave
the distinguished visitor an unmis-
takable cordial welcome on his arrival
in England for the first time in his
life. The meeting between M. Loubet
and the Duke of Connaught was most
cordial, the duke expressing the king's
pleasure at the president's arrival.

Subsequently the mayor of Dover pre-
sented M. Loubet with an address of
welcome.

The president's reply was as fol-
lows:
"Monsieur Lemaire: I thank you
for your complimentary welcome at the
moment of setting my foot on the
territory of Great Britain. I wish to
tell you with how much satisfaction I
have come over in the name of France
in response to the generous invitation
of His Majesty, King Edward the
Seventh, to bring to this great nation,
which is our neighbor, a public testi-
mony of friendship. Great Britain

and France have not only motives of
interest for drawing together and
coming to an understanding. They
have both founded their prosperity on
liberal institutions and they have ded-
icated a like attachment to the main-
tenance of peace. Their accord, use-
ful and profitable to themselves, can-
not be less so to the progress of civil-
ization and the welfare of humanity."

M. Loubet left Dover for London at
2:30 p. m. The entire route to the
railroad station was lined with troops,
bands were stationed at intervals and
the strains of the "Marseillaise" fol-
lowed the president throughout, each band
taking up the tune as the cortege ap-
proached. At the station another
guard of honor was mounted. With
little delay the presidential party en-
tered the royal train and started for
London.

The whole railroad line from Dover
to London was guarded by men stand-
ing within sight of each other.

KING EDWARD

Gorgeously Attired Extended a Cor-
dial Welcome to French President.

London, July 6.—President Loubet,
the first president of the republic who
has ever represented the French na-
tion as the guest of the British court
arrived in London from Dover soon
after four o'clock this afternoon and
was greeted at the Victoria railroad
station by King Edward and the Prince
of Wales, accompanied by the cabinet
ministers and a host of other dis-
tinguished persons.

The king stepped forward as the
president alighted and repeatedly
shook hands with him. King Edward
then introduced the Prince of Wales,
and others who were all in full uni-
form or court dress, forming a bril-
liant spectacle. M. Loubet then pre-
sented the members of his suite to the
king who warmly shook hands with
them.

After an inspection of the guard of
honor the king and M. Loubet left
the station and entered a stage car-
riage, in which the Prince of Wales
and the Duke of Connaught were also
seated. The vehicle, escorted by a de-
tachment of life guards, was driven
through the crowded, troop-lined and
well decorated streets to St. James
palace. M. Loubet was loudly cheered
everywhere.

This is the season when the summer
girl goes visiting, and becomes a nu-
sance to the mother of the girl she is
visiting.

We are always glad when July
comes, being worn to a serious state of
nervous collapse by the accounts of June
weddings.

It is generally admitted when a
crowd of young people get together,
that it is easier to work mother than
it is to work father.

DESTRUCTION OF OHIO CONSTITUTION.

At the last general session of the state legislature, four amendments were proposed to the constitution of Ohio, to be voted on by the people of this state at the November election of 1903. These amendments are, one doing away with the double liability of stock holders in private corporations, one authorizing the classification of property and taxation thereof according to class; one giving the governor the veto power, and an amendment concerning the number of representatives allowed each county in the lower house of the general assembly.

A law also was passed at this session, giving to political parties, the right in convention, to approve or disapprove any proposed constitutional amendment or amendments, and have the amendments, as approved or disapproved, placed on the party ticket, and providing that an elector may vote on each amendment separately, by putting his mark before the "yes" or "no" of each amendment, or make his mark under the party emblem, and thus vote on the amendments without thought and according to party will.

At the special session of the legislature, after a great part of the municipal code had been declared unconstitutional by the supreme court of this state, a fifth amendment was proposed, authorizing the division of cities into three classes for purposes of government, those having one hundred thousand inhabitants and over, being cities of the first class; those having from twenty five thousand inhabitants to one hundred thousand, being cities of the second class; and those having under twenty-five thousand inhabitants, being cities of the third class.

The Republican party, in their state convention, at Columbus, have approved these amendments, and have ordered them, as approved, to be placed on their official ballot, and thousands of members of that party, not knowing what they are doing, will put their mark under the "eagle" next November, and thoughtlessly vote for these five amendments.

Hon. W. J. Boers, of Van Wert, O., is writing a series of articles for the Ohio Law Bulletin, on the proposed amendments. He shows that while some of these amendments may be all right, some of them are undoubtedly vicious. Especially so is the one relating to the classification of property for purposes of taxation. He shows that if the constitution should be amended in this particular, it will be possible to tax farm property at one rate and city property at another, the taxation of stocks and bonds held by the wealthy to be low, and the personality owned by the poor, may have a high rate of taxation; the stocks and bonds of the different corporations may be classified, and the rate of taxation of the different classes may vary, some having a very high rate of taxation and others a low rate. In this matter of taxation, a class spirit will be created in our state the farmer will be arrayed against the inhabitant of the city, there will be friction between the

rich and the poor, and constant strife will cause a sharp division of these classes, where there should be unity. Judge Boers also shows that while it would be well for the governor to have the "veto" power, the third proposed amendment gives the chief executive too much power over the general assembly, and that the amendment should be defeated in its present form.

The amendment permitting the classification of cities is the result of the supreme court's action, regarding the special governments of Toledo, Cleveland and Cincinnati, and to our mind is but an opening wedge to the introduction of other amendments, producing the anarchy of special legislation that existed before the passage of the new municipal code.

All great constitutions are of slow growth. That of England has been over seven hundred years in the making. A great part of the United States constitution has been taken from that of England, and in one hundred and fourteen years, it has undergone few changes. In this respect, it is like the constitution of England. It is due to the checks to amendment contained in our constitution, that our government has been so strong and powerful.

The present constitution of Ohio has stood for over fifty years, with but slight amendment; under its beneficent provisions, our state has prospered and grown in strength and riches. The people have never shown any great desire to amend the present instrument. They voted down the proposed constitution of 1872, and some amendments that have been proposed since. Yet there are persons in this state who are desirous of new things. There are those who would do away with the present constitution by making it easy of amendment, and making it—not the declaration of the will of the people—but the mere playing of the politician and of the party in power. They are like Sieves, of France, who stocked the pigeon holes of his bureau with constitutions to suit the various phases of the French revolution. These innovators have begun the work of destruction by the passage of the iniquitous law before referred to, giving to political parties the right to place proposed constitutional amendments approved or disapproved, on the official ballot, and allowing the electors to carry out the party will in regard to these amendments by placing their mark under the party emblem. Should the Democratic party in their state convention follow the example of the Republicans (which the writer earnestly hopes will not be done) and approve these amendments and place them on their official ballots, the purpose of the innovators would be well nigh accomplished. Thousands of men of both parties would blindly vote for amendments about which they knew nothing, our constitution would doubtless undergo numerous changes every few years, and in time, the glorious instrument would become not the safeguard of the rights and liberties of the people of Ohio—but the toy of the bosses of the ruling political party.

The Democratic party has a glorious opportunity to do a great service

to the people of Ohio, at the August convention. It is the privilege of democracy to disapprove these amendments, and pledge our great party to the repeal of the law, changing the method of voting on proposed amendments to our constitution, and so save our great state from the serious danger with which she is threatened.

THE "TOUCH" ARTISTIC. I
A Baltimore Job That the Thief Could Not Resist Doing.

We have an society too much on the square. Perpendicular and horizontal lines do not make the only intelligent divisions. The relationship of Raphael with a pickpocket I talked to once is more intimate essentially than it is with some makers of "pictures" and molders of "statuary." The thief had been arrested because, having obtained permission to live in New York provided he did not work there, he was caught stealing a watch.

"Why did you do it?" I asked him. "Well, I'll tell you," he said. "I simply couldn't help it. I'm no kleptomaniac. It isn't the stealing I like, but the fun of doing a hard job prettily. This is the second time I've made. The first was like this: I saw a rich, fat man in a crowd, and I noticed that his watch was hung in a new way, hard to break. My fingers itched, not for the watch, but to break it off. I moved up, lifted the watch, walked away with it and then went back and hung the thing on the chain again. This second time something like that. I saw a delicate job, tried it, got the watch, and just then the fellow happened to look for the time. He 'hollered,' and a detective near by pinched me. I don't think I'm what you'd call a natural thief, but I like to work with my fingers, and I like the excitement of stealing."—McClure's.

FREDERICK THE GREAT.
In the course of some military evolutions Frederick the Great of Prussia, irritated by some mistake of a captain, ran after him with his stick in order to strike him. The captain ran away. The next morning the commanding officer reported to the king that the officer in question, one of the most efficient in the regiment, had sent in his papers. "Tell him to come to me," said the king. "The officer, in great perturbation, came. 'Good morning, major,' he apostrophized the officer, who was speechless with surprise. 'I wanted to tell you of your promotion, but you ran so fast I could not catch you up. Good morning.'"

Another time an officer attempted to get a comrade into bad odor with the king by telling his majesty that he was a drunkard. In a subsequent battle the latter's fitness was conspicuous, whereas his slanderer played a very poor part. When afterward he dealed past the king at the head of his regiment, his majesty called out to him in a voice of thunder, "The sooner you take to drink the better."

THE EARLY CIRCUS.
Leaving out of count the great circuses of Rome and Antioch and coming down to something of modern times, the first circus in England was on a footpath known as Halfpenny Hatch, in the Waterloo road, London. There, in 1770, Astley's first performance was given, with the aid of a drum, two fies and one clown. A charge of sixpence was made for the front standing places. There was no building and not even a tent, but merely a ring of ropes and stakes. Primitive as were the arrangements Astley soon attracted good audiences and was able to add to his programme conjuring, transparencies, vaulting and tumbling, with displays of fireworks. In course of time he was able to hire an enclosed ground and erected seats under a substantial roof. He called the place Astley's Amphitheater Riding house.

A HEARTY EATER.
In a book on gastronomy appears this anecdote of the gastronomic prowess of a Swiss guard in the employment of the Marquis de Villars: "One day the guard was sent for by the marquis, who had heard of his enormous appetite. 'How many sirloins of beef can you eat?' he tentatively asked. 'Ah, monseigneur, for me I don't require many—five or six at the most.' 'And how many legs of mutton?' 'Legs of mutton? Not many—seven or eight.' 'And fat pullets?' 'Oh, as to pullets, only a few—ten dozen.' 'And of pigeons?' 'As to pigeons, monseigneur, not many—forty, perhaps fifty.' 'And larks?' 'Larks, monseigneur? Always.'"

FAMILY RELATIONS.
"Who is that man you were just talking with?"
"That's my brother-in-law."
"He looks enough like you to be your own brother."
"He is my own brother. We are twins."

"Twins? Then why did you say he was your brother-in-law?"
"Because he is. I have three brothers—one in law, one in medicine and one in the army."—Minneapolis Tribune.

"He never impressed me as a brainy man."

WE MUST GROW OR DIE.

Constant Study Is Necessary to Keep Pace With the Times.

A passion for growth, a yearning for a larger life, is characteristic of all great souls. A man is measured by his power to grow, to become larger, broader, nobler. The intensity of his desire to reach out and up defines his capacity for development.

Any one, young or old, possessed by a passion for growth is constantly adding to his knowledge, always pushing his horizon a little further. Every day he gains additional wisdom, every night he is a little larger than he was in the morning. He keeps growing as long as he lives. Even in old age he is still stretching out for larger things, reaching up to greater heights.

We often find plants and trees that are not fully developed, but have reached the limit of their growth. They cannot be made to respond to the wooing of enriched soil or copious watering. The power for the extension of cell life seems to have departed.

There are many human plants of similar nature. Early in life they settle into grooves, from which nothing can displace them. They are dead to enterprise, to advancement along any line. New movements, new systems of business, larger conceptions of life and similar things in the living, moving present do not appeal to them. Invariably bound to the past, they can step only just so far this way, only so far that way. There is no further growth, no more progress for them. They have reached their goal.

Employees often think that they are kept back designedly and that others less deserving are pushed ahead of them, when the real trouble is with themselves. They have ceased to grow. They continue to move in a circle. They have not kept pace with the trend of the times.

"Forward!" is the bugle call of the twentieth century. The young man or woman or the old man or woman who has ceased to grow is to be pitied. Life holds nothing more for either.—Success.

THE LAU MELOMEO.

How Hawaiian Natives Go After the Finny Tribe.

"Lau melomeo" is the name of a decoy used by the native fishermen of Hawaii. It is made of the hardest wood to be found on the islands and is carved and rubbed till it assumes the shape of a club with a little knob at the smaller end, to which the line is tied.

The club is from one to three feet long. A village sorcerer performs certain rites over it over a sacred fire. After this is done the club is magic, and the fisherman must be extremely careful of it. If a woman should step over it or enter a canoe in which it lies, the club would lose all its power and would be useless ever afterward.

After the club has been charmed the fisherman mixes candlenut and coconut meat, bakes it and ties the mixture in a wrapper of coconut fiber.

At the fishing grounds the club is covered with the oily juice of the stuff and is then lowered carefully to the bottom. The scent of the baked nut meat attracts certain kinds of fish, which soon gather and begin to nibble at the club. As soon as enough fish are around the decoy a small bag shaped net is lowered very gently until its mouth is just over the club. The latter is then pulled up carefully and cunningly till it is within the bag. The fish are so eager for the stuff with which the club is covered that they follow it into the net without fear. As soon as all the fish are in it a fisherman dives and closes the mouth of the net, whereupon the rest haul it up quickly.—Washington Post.

IN THE WAKE OF A MIGHTY FLOOD

Death Grimly Stalks,

While Ruin and Devastation Face the Grief Stricken Survivors.

Johnstown Horror Is Recalled

By the Bursting of a Dam Across a Stream That Traverses Several Pennsylvania Towns---
Loss of Life Estimated at Seventy-five Persons.

Greensburg, Pa., July 6.—A water-spout of immense proportions, striking in the vicinity of Oakford park, Sunday afternoon, at 4 o'clock, created a flood that caused great loss of life and property. It is known that at least 20 persons lost their lives, and rumors place the number of dead at more than 100, but until a late hour last night, only three or four bodies had been recovered, having been washed to the banks of the little creek that runs parallel with the park.

List of Casualties.

Jeannette, Pa., July 6.—Dawn broke today upon a scene of devastation and ruin along the Brush Creek valley. From the site of the broken dam, at Oakford park to Wilmerding, taking in the towns of Jeannette, Penn., Larimer, Greensburg, Irwin, Burrell and Manor, the awful power of the rushing waters following the breaking of the dam, is apparent on all sides.

The damage to property will not be less than \$500,000 while the number of lives lost, is still uncertain, the estimated running from 50 to 150. Almost with the first streak of daylight, a bureau was opened here, where the names of the identified dead recovered and the missing were registered, together with a description of the bodies recovered, but not identified. A revised list of the dead and missing so far as known is as follows, but it may be days before the extent of the disaster can be determined:

The people are still too excited to talk of the flood, and it is with difficulty a complete death and injured list can be compiled.

All the residents claim that more bodies went down in the flood, but the rumors are so numerous, that they cannot all be run down. Several persons are reported as missing from their homes along the stream, and many anxious parents are almost frantic with fear, traversed the streets all night, searching for their lost children. Up until an early hour this morning, many children have been found, but a few are still missing who may have been drowned.

Stories of thrilling rescues are

heard on all sides, and many acts of bravery are reported, the heroes being persons who risked their lives to save others. One man whose name could not be learned, was seen by several persons, to make a hard effort to rescue a woman, presumably his wife, shortly after the flood hit the waiting room. The man was in an apparently safe position among some saplings. In his struggles to get the woman, he lost his hold, and both were swept away with the torrent, and probably lost.

LIFE LOSS

Will Reach Seventy-five. Twenty Bodies Recovered.

Jeannette, Pa., July 6.—At ten o'clock this morning, it is estimated that the loss of life by yesterday's cloudburst and flood at Oakford park, will reach seventy-five. Twenty bodies have been recovered. Many are foreigners, and have not been identified.

About Jeannette, a rescuing party was organized by Mr. M. P. Freshwater, and K. Joseph Hoffman immediately after the wall of water passed. Dr. Freshwater stated this morning, that they had rescued fully 100 persons, who had been thrown into the stream, by their houses being overturned. Many houses were seen by them floating down the stream, upside down, sideways and in every possible manner.

Mrs. Schrader, one of the victims, was, it is said, asleep in her home at the time the flood started. When Mrs. Schrader is supposed to have awakened from her slumber, she tried to get out of her home. Her efforts were all in vain, however, and when she opened the front door in view of a score of people, who were watching the water rushed in with a vengeance. The imprisoned woman, old as she was, saw her position, rushed to the second floor of her house. Then her house was swept from its foundation, and taken down with the swirling current. When the house was floating in midstream, nearly opposite the Pennsylvania railroad station, persons who were watching the floating residence, suddenly saw the shingles of the roof fly off. With a piece of board from some part of the house, the frenzied woman with almost certain death staring her in the face, was trying to get out on top of the roof in the hope of saving herself.

Her strength failed her in a moment, however, and with uplifted hand, and in all probability, a prayer on her lips, Mrs. Schrader went to her watery grave. Shortly after she went down the house was broken up, by others hitting it, and the body of the drowned woman was seen to float out in the street, but despite all efforts to rescue her body, she went down with the other debris.

Four members of the family of Wm. Nigga, a Polish coal miner, who is employed by the Penn. Gas and Coal Co., were drowned in the flood. The family occupied a cottage house in Coal street, Penn. station. At the time of the flood, the father was visiting at the home of Joseph Theobalds, closely. With the first rush of the waters, the wife screamed, and her six children, all collected around her. They were all crying and almost frightened to death. In vain did Wm. Nigga attempt to get to his home to rescue his family. In this he failed, and was forced to see those swept away before his eyes, while he was powerless to assist his dying wife and six children. As the house floated down the stream at a swift rate of speed it was smashed by heavy timbers and the seven occupants were

hurled into the water. With the aid of a friend, the father running down Brush creek like mad, was able to save his son Adam, aged 16 and John a seven year old son, was rescued by a Polish man, and taken in an unconscious condition to the home of Mrs. Bridget Sarsfeld, in Railroad street, where he was cared for last night. Susie, a 12 year old daughter, was rescued by John Askins, who lived on the other side of Brush creek. Mrs. Nigga, with Polly, aged 7, Josephine, aged 9 and the baby named Frank, two years old, were drowned and their bodies have not been found.

And Accidents Not Numerous

On the Fourth,

As It Was Celebrated in This City.

McBeth Park Park Was the Principal Attraction for Limaites.

Sixteen Thousand People Hauled to and From the Resort During the Day—A Few Accidents Reported.

The Fourth of July of 1903, has passed and the patriotic young American has another year to live before he can again be in the ecstasy in which he participated in Saturday's celebration. There was no formal celebration of the holiday in Lima, but nevertheless, the day was generally observed in some manner or other. McBeth's park was the principal attraction during the afternoon and evening and the Western Ohio and city street railway hauled 16,000 people to and from that resort during the day and night. It was the largest crowd that ever visited the park at one time, and the railway service was far superior to that of any previous event of the kind at McBeth's. The park management is also to be commended for having prevented the use of fire works on the park grounds, during the day. The park people furnished a very fine display of fire works, that was witnessed immediately after the performance in the theatre.

In the city, there were many private displays, and considering the amount of powder that was burned, the day was remarkably free from accidents and fires. The fire ladders made only one run during the Fourth.

Charles Grenfelder, called at the police station, Saturday morning and filed a complaint against a lad named Bodiker, who, it was claimed, had maliciously shot Grenfelder in the face with a blank cartridge. The entire left cheek was blistered, and peppered with powder grains. The trouble occurred while the injured man and two companions were in a yard with several young ladies, and Bodiker, taking exceptions to some remarks made by Grenfelder, pointed the pistol in his face, and pulled the trigger. This morning the complaint was withdrawn, Grenfelder, who was the powder plucked out, refusing to prosecute.

Contributions of fireworks from sev-

eral of the neighbors on north Pierce street, gave a score or more of children in that neighborhood, a delightful treat on the night of the Fourth. The exhibitions, which lasted several hours, and brought out a fine display, took place at the home of Mr. and Mrs. Harry Knisely, corner of North and Pierce streets.

About ten o'clock Friday night, two young men came to the Melvile drug store, and one of them displayed an ugly wound on his left breast, caused by the explosion of a blank cartridge at close range. The injured man's companion, who was intoxicated, acknowledged having caused it, but was too much under the influence to realize the consequences of placing even an "unloaded" gun to another's heart and pulling the trigger. The flesh was torn, and the powder buried beneath the skin. A poultice was applied to give temporary relief, and the young man, who declined to give his name, advised to consult a physician without delay.

THE IDLER.

Louie Whitmer can celebrate the Fourth of July, and every centennial celebration of the United States, with double the fervor of the average citizen. He was born on the 4th of July, 1826, when patriotism was rampant at Philadelphia, in honor of the first hundred years of independence, but "Dutch" wasn't bossing any stage flunkies at that time.

The Assembly club will hold its regular dance at the McBeth park pavilion, this evening.

WILLIE VANDERBLIT HAS A BLACK EYE.

Paris, July 4.—The condition of W. K. Vanderblit, Jr., who was injured by an explosion of an automobile lamp, Friday evening, while out riding in Paris, is said not to be serious but one of his eyes is damaged. He is kept in a dark room at the hotel Ritz.
